About Next Telecom NZ

Commercial in confidence, © Next Telecom New Zealand 2021

Enjoy seamless service at the most competitive prices, because we're committed to eliminating complexity and cost for you.

Our products and services range from SIP lines to tailored Cloud PBX Systems, plus business- grade fixed and mobile voice and data services.

Get modern communications to keep your business running.

Supports your business activity so you and your team stay connected and productive.

Work from anywhere and never miss a call again.

- Use the app which fits with your working style. At home, in the office or out and about.
- Receive or make voice and video calls.
- Meet and collaborate remotely using simple web meeting and collaboration tools.
- All the business features you expect like extension dialing, transfer and announced transfer, presence, voicemail, in-app recording and individual call-flow management.
- Customers can reach you first time, every time wherever you're working.
- There's no need to carry two phones because you take your work extension with you.
- Work anywhere across multiple availability zones.

Why NextVoice

Benefit from a communications tool which flexes to meet your business needs - at an affordable price.

Brilliant basics keep your costs down so you enjoy affordable value.

- A focus on core communications features means NextVoice is affordable and user friendly.
- Choice of carrier to meet your needs and your budget.
- There's no need to provide phone hardware because your team can access NextVoice on their own device.

Modernise your communications in the cloud.

- Enterprise level, telco grade features and reliability.
- NextVoice's cloud architecture scales with your business.
- There's no need for costly on premise hardware or up front investment to cover future growth.

Why NextVoice

Self service using NextVoice's easy to use admin portal.

Everything you need to setup and manage your communications is accessible in one convenient location in the cloud

Self service moves, adds and changes for users, your IVR messages, call flows and time rules

You can easily manage users who leave or join, and update roles and responsibilities as they change.

- Manage risk and changes in the way your business operates. You'll have options when you need to adjust to changing circumstances or if disaster strikes.
- From set-up to adoption, NextVoice is so easy to use you'll be up and running in minutes.
- Retain full independent control of your day to day operations.
